

## **ABC TECHNOLOGIES**

### **ABC Technologies Inc. Recognized with 2020 Certificate of Achievement - Quality by Toyota**

Toronto, Canada – April 15, 2021 – ABC Technologies Inc. was recognized by Toyota North America with a 2020 Certificate of Achievement – Quality for its Product Development plant. This is the second year in a row that ABC’s Product Development plant in Brampton, Ontario, Canada has been recognized with this award and the third consecutive year that ABC has been awarded a Certificate of Achievement - Quality. In 2019, this same plant received a RAV4 Excellent Launch Award for seamless launch of Toyota’s highest volume model in North America.

The award recognizes outstanding quality achievement by ABC’s Product Development plant for achieving Toyota’s stringent quality standards and is only granted to a handful of suppliers each year. “ABC has built a culture focused on delivering quality products, free of defects. Our aim is to constantly exceed our customer’s expectations year after year and this recognition from Toyota, the third in a row, is a testament to that commitment. We thank Toyota for the award and for trusting ABC to provide innovative, highly engineered products across some of their highest volume platforms. We will continue to strive every day to meet and beat Toyota’s expectations as a trusted supplier” said Todd Sheppelman, President and CEO of ABC Technologies.
