

Environmental, Social & Governance (ESG) Policy

ABC Technologies believes that Environmental, Social Governance is essential to the growth of the business. To guide us on the right pathway, the following Six Drivers have been developed, as well as our ESG Policy to officiate our commitment to the highest ethical, environmental standards and social sustainable practices.

The ESG policy guides ABC Technologies' operations for sustainable performance in accordance with the core values of the Company. Global operations correspond to high ethical standards and local/international law to ensure a balance between creating high-quality products and maintaining a socially responsible business. We facilitate a positive impact through strategic collaboration with different organizations, creating and innovating high-performance products, maintaining transparency as well as holding ourselves accountable to the Company's ESG policy. By engaging with stakeholders, we ensure an open platform of communication to produce innovative ideas to keep our commitments to current and future ESG goals. We are dedicated to our six 'drivers' of ESG that align with the company's scope of operations and practices, and the executive team is committed to include consideration of all ESG related issues in all business strategies, insuring a culture of sustainability.

To fulfill these obligations and commitments, ABC Technologies is dedicated to the following 'six drivers' of ESG responsibility:

1. Our People

Our employees are the foundation for growth and success of the company. We are committed to safe working conditions, offering skills and careers development and an inclusive and respectful working environment. We are committed to ensure all employees are treated fairly and with dignity and consideration, and that diversity in the workplace is both embraced and highlighted. Additionally, we engage in business practices and activities that ensure and actively demonstrate respect for fundamental human rights. We will apply fair labor practices, while respecting the national and local laws of the countries and communities we operate in. ABC Technologies' Global Code of Conduct highlights these and other support practices for all our employees.

2. Customer centered Products & Innovation

To achieve the highest level of customer satisfaction, we focus on excellence in design, quality, advanced engineering, supply chain management, lean manufacturing, and precise launch activities. We are committed to implementing operational improvements, innovation of products and processes that position us and our customers for long-term growth, and to uphold our customers ESG expectations.

3. Business Ethics

The Company holds itself to the highest ethical standards. The Global Company Code of Conduct outlines ABC Technologies' commitments and business ethics procedures, throughout all the jurisdictions that we operate and/or conduct business in. We are committed to doing business in an open, honest, and ethical manner.

4. Corporate Governance

Corporate Governance is required for ESG development and oversight. ABC Technologies is accountable for managing, measuring, and reporting our business initiatives and performances. We are also committed to providing both transparency and clarity of business endeavors.

5. Community Involvement & Development

We are dedicated to supporting multiple global initiatives in community development, through charitable initiatives. We endeavor to support children and disadvantaged residents in the communities in which we do business. Our efforts globally will be channeled towards Science, Technology, Engineering and Mathematics ("STEM") education, skill development, through internships and collaborative projects with High Schools, Colleges, and Universities. We will strive to provide employment and economic opportunities in the communities where we operate.

6. Environmental Sustainability

ABC Technologies is committed to protecting the environment, fulfilling compliance obligations, and continually improving the Environmental Management System (EMS) to enhance environmental performance. ABC Technologies is committed to reducing our environmental footprint. We recognize that pollution prevention and resource conservation are critical factors of a sustainable environment. All our employees recognize the importance of preserving our natural resources, recycling, reducing waste, improving energy efficiency, and reducing our carbon emissions. We will continue to educate, train, and motivate its employees and suppliers, to carry out tasks in an environmentally responsible manner.
